

Important Reminders from the Health Office

Hello Irish Parents!

We hope you and your families are doing well, staying safe and healthy.

As we prepare to transition from online learning to in person/hybrid learning, it is important that you let us know about your child's health concerns and any medications that will be kept in the Health Office.

Your child is unique. Please give us the details that will help us be of assistance to your child at school. If he/she has any health concern, contact your School Nurse or Health Tech. Information you provide will be reviewed by the School Nurse and a Health Care Plan may be developed.

Also, please contact your doctor, they can assist in getting you an updated school Health Care Action Plan for any health conditions (asthma, allergies, migraines, etc), and sign the forms for any meds to be kept at school.

Medication at School

All medication given at school, whether doctor prescribed or over the counter, must be accompanied by PSD Authorization to Administer medication form (available on the PSD website under the Parent, tab, Student Health - Please contact the Health Office if you have questions), signed by both the parent/guardian and the physician. Medication must be provided and brought to school by a parent, in the original prescription bottle or over the counter container. Pharmacists may provide you with two bottles if you ask them to label one for school use. If medication changes or medication is discontinued during the school year, please have the child's doctor fax us the new or correct orders.

Authorization for medication administration and Health Care Action Plans **MUST BE COMPLETED BY A DOCTOR FOR EVERY SCHOOL YEAR.**

Phone Numbers

It is important that we have your home and work phone numbers, as well as emergency contact(s) and phone numbers(s). Should your child become ill or hurt while at school, we **MUST** be able to reach you. If changes occur during the school year, please notify the school office. PLEASE have a Plan B and Plan C for picking up your student if they become ill at school!

Thank you for your cooperation. If you have questions or need addition information, please call.
